### Activity Report 2017-2018

Asmee Foundation comprises of development professionals, media professionals, corporate professionals, workers, activists, PhDs, MBAs, CAs, civil servants, bankers, consultants, and anyone else who brings their experiences, expertise, and perspectives to the organization. What unifies them is the common goal of improving the future of our children and youth of India

Education is both the means as well as the end to a better life: the means because it empowers an individual to earn his/her livelihood and the end because it increases one's awareness on a range of issues – from healthcare to appropriate social behavior to understanding one's rights – and in the process help him/her evolve as a better citizen.

Our mission is to improve quality of life and outcomes for children in shelters and to ensure that every child is able to fulfill their potential irrespective of his or her circumstances.

Hence the name “ASMEE” that stands for the self respect and courage of kids and youth, the foundation is associated with, while they are facing the challenges of life to make it meaningful for themselves and their families.

Our minimum target is to ensure that these children are able to live a life free from exploitation and are capable of managing emotional and financial life crises.

However our real goal is for children we work with to end up on par with a stable middle class demographic that allows us to break the cycle of poverty and abandonment.
